

# Sustainability

This is what we stand for with our sustainability icons

**Made from Maritime Plastic \***

The product is made of recycled plastic from the maritime industry.

**100% recyclable**

The product can be integrated into the regular material cycle. New products can be created from the recyclable plastic.

**Made in Germany**

The product stands for quality, the promotion of local production and short distribution routes.

**Made in Europe**

The product represents quality, the promotion of European production and shortened transport routes.

**Renewable resources**

**Made of coco fibre**

The product is made from fast-growing and plant-based raw materials.

**100% peat free**

The product completely avoids the addition of extremely slow-growing peat.

**Certified & validated**

"Der Blaue Engel", PEFC and FSC® - many of our products and packaging are certified and made with raw materials from responsible forestry.

**Plastic-reduced packaging**

We have significantly reduced or completely eliminated the use of plastics in numerous packaging products. We continuously check and test further possibilities for improvement.
